North East England based rock quartet Edenthorn have gained an extremely loyal and ever growing fan base since the release of their debut album 'The Maze' in 2015 through extensive touring around the UK, solid memorable live performances and a personal and direct connection with their fans. The bands live shows are an interactive and engaging experience that is both fun/friendly yet focused/passionate. Their upbeat, anthemic, positively charged, sometimes intense Rock N' Roll captures the hearts of Rock, Hard Rock, and even Metal fans of all ages.

Now with their second full-length album **EXIST**, brothers Kyle (*Vocals*) and Mark (*Drums*) and brother and sister Dylan (*Guitar*) and Faiba (*Bass*) reveal an outstanding mix of massive rock riffs, melodic melodies, infectious choruses and a solid rhythm section that's already accumulated many devoted fans around the globe.

Mainly on the strength of their memorable live performance, Edenthorn have built up a strong following up and down the country, which in turn seen them play to a sold out audience at The Cluny, Newcastle, in March 2018. Following their sold out show, they bagged a support slot with Lightning Seeds at Northumberland Live Festival in June 2018, which seen them playing to a crowd of over 10,000.
